

SportsCom project -

Open event introduction

July 23, 2025

The Regional Development Fund (RDF) of Attica hosted a presentation of the SportsCom project, an initiative focused on promoting health, resilience, and social inclusion through community-based sports.

The public event was held at The Hub Events in Athens and drew an audience of 45 participants, despite the city experiencing an intense heatwave.

Attendees were introduced to the project's objectives, framework, and anticipated outcomes, as well as its aim to contribute to the enhancement of the selected policy instrument under the Attica Regional Program 2021–2027.

Prior to the public event, the inaugural meeting of the SportsCom regional stakeholders' group also took place.

SportsCom project is funded by Interreg Europe and National Funds.
